

Position: Industrial Cleaner
Reporting to: Sanitization Lead
Department: Operations
Location: Calgary, AB
Type: Full Time, Permanent

The Position

The Industrial Cleaner will be responsible for carrying out light and heavy cleaning and sanitization practices for the day-to-day operations of the facilities. The ideal candidate is punctual, trustworthy, able to manage time effectively, takes pride in the work they do, and is aware of health and safety procedures. If you have prior cleaning experience, require strict sanitation standards, have organization and attention to detail skills, and are interested in working in cannabis industry, this is the position for you!

About Bloom Cultivation Ltd.

OGEN by Bloom Cultivation is a licensed producer located in Calgary, Alberta. We choose to cultivate small-batch, craft cannabis to deliver a high-end, dried flower product of exceptional quality. We work as a team and are proud to grow in a world-class indoor hydroponic facility.

Position Duties and Responsibilities

The Industrial Cleaner works within the company's sanitization team and reports to the Sanitization Lead. The selected candidate's duties and responsibilities will include the following objectives:

- Abide by company policies, procedures, and strict sanitization processes
- Follow company Standard Operating Procedures, Form's, and Work Instructions
- Promote and ensure safe work conditions and enforce company Health and Safety policies
- Maintain exceptionally high standards for cleanliness to prevent cross-contamination of areas
- Perform daily, weekly, and monthly cleaning and sanitization of the facilities including floors, corridors, production rooms, offices, washrooms, equipment and supplies
- Empty facility trash bins daily and replace with new garbage liners
- Cleaning and restocking restrooms and changerooms
- Maintain PPE throughout the facility to ensure supplies are accessible during operational hours
- Document tasks performed as per standard operating procedures and good production practices
- Understand and safely handle industrial chemicals to be used for cleaning the facilities
- Wear required Personal Protective Equipment (PPE) when performing tasks
- Train new employees on facility sanitization and company standards
- Meet demanding deadlines and shift competing priorities

Minimum Requirements

- Successfully pass a criminal record check and other security-related requirements
- Must be legally entitled to work in Canada
- Must be 18 years of age or older
- High school diploma or GED or a minimum of 1 year of direct experience
- Strong oral and written communication skills to ensure correct documentation and traceability
- Basic mathematical skills
- Highly organized and detail oriented
- Flexibility to work on evenings and weekends, if needed

Soft Skills

- Must have good interpersonal skills to maintain effective work relationships
- Excellent organization, self-management, and attention to detail skills
- Works well in a fast-paced environment under pressure

Position Preferences

- Previous experience in a cannabis, manufacturing or pharmaceutical facility
- Knowledge of GMP, GDP and GPP
- Valid First Aid and/or WHMIS Certification

Working Conditions and Physical Requirements

- Physically fit to perform manual labour tasks required for employment in a large-scale indoor manufacturing facility
- Must be able to perform repetitive tasks for extended periods of time including standing, bending, kneeling, reaching, and lifting
- Must be able to lift loads up to 50lbs
- Required to wear Personal Protective Equipment (PPE) to perform industrial cleaning tasks

How to Apply

If this position sounds like the right fit and opportunity for you, please submit your cover letter and resume to hr@ogencannabis.com with "Industrial Cleaner" in the subject line.

Our Values

STREET: we honour the pioneers before us. Without them, the landrace strains would be extinct and new hybrids would not exist. We follow in their footsteps to maintain the art of cultivation.

SCIENCE: we are forward thinkers, inspired by science and technology. We continuously improve our processes by hypothesizing, gathering data, and applying our knowledge. It helps us cultivate consistently and safely to meet the strict cannabis regulations.

QUALITY: we are connoisseurs, not mass producers. We select the best genetics and we pheno-hunt. We take the time to hang-dry, hand-trim and slow cure our cannabis. Our expectations are high because we demand top quality for our customers and ourselves.

HUMILITY: with every new challenge we find a better way, we push the boundaries and we don't give up.

COMMUNITY: we are proud to be local and we share the entrepreneurial spirit of Alberta. We believe in the craft movement, an appreciation of how things are carefully made. We support and embrace our diverse community.
